BIG DATA PROMISES AND OBSTACLES: AGRICULTURAL DATA OWNERSHIP AND PRIVACY

Save-the-Date: The workshop organizing committee would like to ask all attendees and presenters to save the date of **Wed, June 24th** for the rescheduled Virtual Workshop on ***Big Data Promises and Obstacles: Agricultural Data Ownership and Privacy***

Please contact Cynthia Parr if interested in attending or further questions. (Invitation only event.)

The Digital Ag project of the Midwest Big Data Hub is sponsoring a one-day virtual workshop called “Big Data Promises and Obstacles: Agricultural Data Ownership and Privacy” on Wednesday, June 24. This workshop will explore these timely and important issues in the context of genetic, environmental, management, and socioeconomic research. Results will be published in a special issue of an agricultural journal. Financial support may be available for several USAIN attendees to participate. Please contact Cynthia.parr@usda.gov as soon as possible to express interest.
